MyTube Crack PC/Windows [Updated] 2022

MyTube is a user-friendly software utility designed to provide you with an efficient means of watching and downloading videos from YouTube, without having to resort to a web browser, extensions or other utilities. This tool is very easy to work with, all you need to do is input your keyword and press the 'Search' button. It spares you from all the annoying adds and lets you enjoy music and videos. You can control the type of results the program returns by selecting a preferred 'Upload Date' ('Last hour', 'This week', 'This Year' or 'Any Date'), the 'Result Type' (video, movie, show), the duration and the sorting criteria. The search results are displayed similar to the YouTube layout, allowing you to browse through the videos and choose the one you are after. After making your decision, you can click on the preferred movie and watch it in MyTube's main window. You have the option of adjusting the volume, pausing, stopping or forwarding the video. The 'Download' function of MyTube lets you add one or more items to the queue, by entering their URL address. Subsequently, you can convert the grabbed video to WMV, AVI, MOV or MP3 format, and play it on other compatible devices. Moreover, this utility enables you to add various YouTube videos to your 'Bookmarks', so you can watch or download them whenever you want, without forgetting their location or having to sign up for an account. MyTube can prove quite useful, as it allows you to quickly track down the video you want to watch and download it to your computer, so you can view it even when you do not have an Internet connection, for instance. Also, this enables you to play the movies on your TV set, burn them to a disc or share them with friends and family. MyTube is an efficient and intuitive application, that can help you easily download videos from YouTube, create playlists and watch movies, in just a few easy steps. Internet Explorer Extension for Web Internet Explorer Extension for Web is a browser add-on designed to make the Internet browsing experience of your PC easier and more efficient.
